

AVerVision SPB350+

Platform Visual Presenter

AVer[™]

formerly
AVerMedia Information

Product Description

The AVerVision SPB350+ is a high quality, yet affordable, platform visualizer designed for budget conscious users who still require abundant features and functions. Featuring 30fps full motion High Definition 1080p video output, users are able to take advantage of the clarity of HD monitors and projectors. Combining this with 8X digital zoom offers a total zoom magnification of 160X. The included A+ software provides the ability to annotate, capture images, record video with audio, build full lesson plans and content, and control the features and functions of the visualizer. Images can be captured to the document camera itself, an SD card, or directly to a PC or MAC. The built-in 4"x 5" lightbox allows for the display of slides, negatives, or other transparent documents. The AVerVision SPB350+ is the perfect high-value visualizer solution for virtually any display application.

Specification

image
